Visit the Library!

1/30/2020

A Gallup poll reports library visits in 2019 outpaced visits to movie theaters and live sporting events. Stop by the *KM Library Learning Commons* to see why libraries are a popular destination. Explore what we've added to our space since the beginning of the semester, such as the exercycle by the tall table (health benefit), adjustable height tables on wheels by the soft seating, and headphones by the audiobooks. Sign-in on the computer as you enter and make yourself comfortable while you work or relax, libraries are great for both!
